

3rd Grade Summer Assignments 2024

Dear Incoming Third Graders and Parents,

It is finally time for summer and lots of fun. I am excited to hear about the fun times you have this summer. Therefore, to help keep our writing skills sharp. I would like you to get a marble journal and write in it twice a week and tell me about something exciting you did that week. You should write three sentences and label the page with the date on top. I can't wait for you to share with me the things you did.

Everyone has their Math summer book to work in and you should have a marble notebook for math to practice. You can begin studying the two and three times tables and there are songs on you tube and you can rock or rap with it.

Lastly and most importantly everyone should read one book of your own choice. I would like you to write a summary of what you read in your journal. You may do an illustration in the journal of your favorite part of the book. I am looking forward to an exciting fun filled year.

With all my best wishes,

Mrs Santafemia
